R1-rebarTM
REBAR CUTTER

The Solution to Drilling Rebar

The new drilling innovation from Armeg.

A series of highly efficient cutters in a range of diameters to match the most popular anchor sizes. Driven by unique, dedicated water feed adaptors and extensions.

Rebar Super Set Components:

- R1 Rebar cutter in the diameter stated
- The equivalent SDS+ hammer bit (medium length series)
- The SDS Rebar drive adaptor, common to all sizes
- The drive adaptor/extension piece for added depth of drilling
- The water feed pipe to connect the water pressure pump
Part No. PTCWFKIT

All kits are supplied in a handy, durable, re-useable carry case.

Rebar Super Set Range

Part no.	Product Description
CR12SSET	12mm Rebar Drilling Super Set
CR14SSET	14mm Rebar Drilling Super Set
CR16SSET	16mm Rebar Drilling Super Set
CR18SSET	18mm Rebar Drilling Super Set
CR20SSET	20mm Rebar Drilling Super Set
CR25SSET	25mm Rebar Drilling Super Set
